Unauthorized use of the Facebook mark, such as contact-facebook.com, will inevitably cause confusion as to whether the domain and underlying use are authorized, endorsed, or sponsored by Facebook when, in fact, they are not. Facebook has an obligation to its users and the public to police against the registration and use of domain names that may cause such consumer confusion.

I have a good faith belief that use of the trademarks in the domain as described above are not authorized by the trademark owner or its agent, nor is such use otherwise permissible under law. Use of the content is not defensible. We have reached out to the registrant with no response or compliance. Please disable or suspend the domain immediately and we will hereby remove you from any legal action that may be taken in the future.

I represent, under penalty of perjury, that the information in this notification is true and correct, and that I am authorized to act on behalf of the trademark owner, Facebook, Inc.

Sincerely,
